32 responses

## The school asks for my views.

32 responses

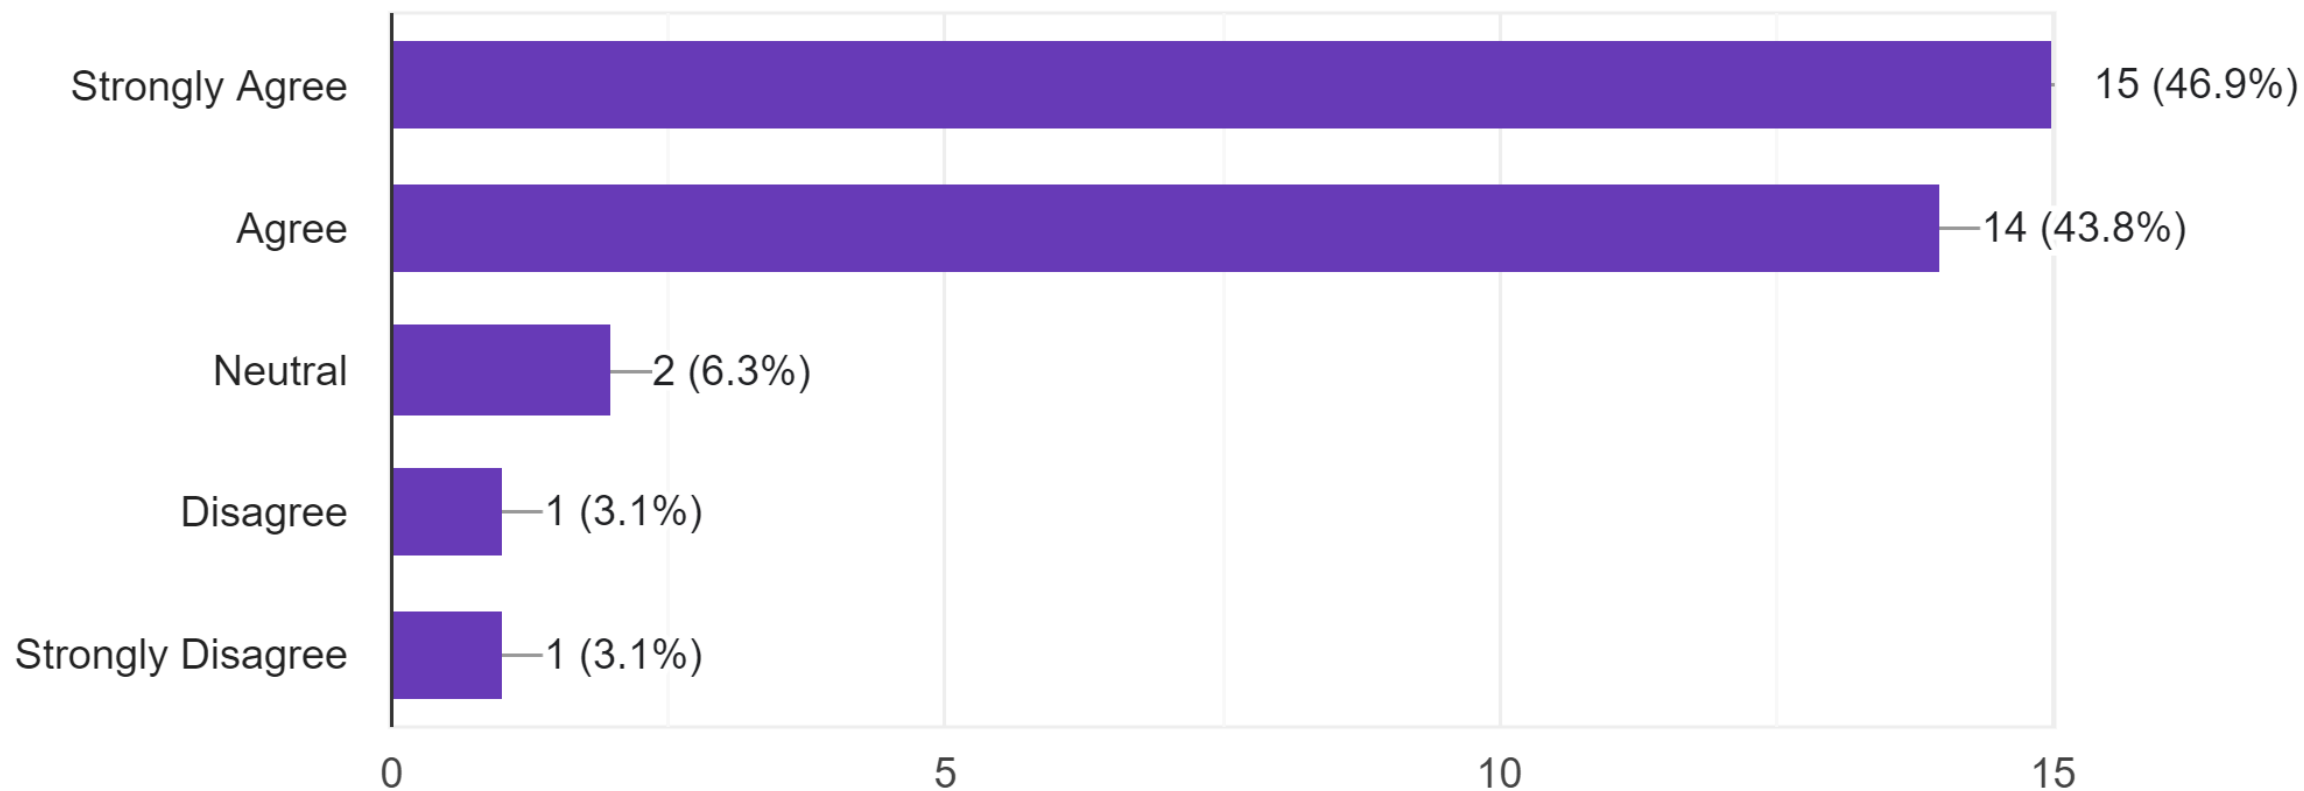

## The school takes my views into account.

32 responses

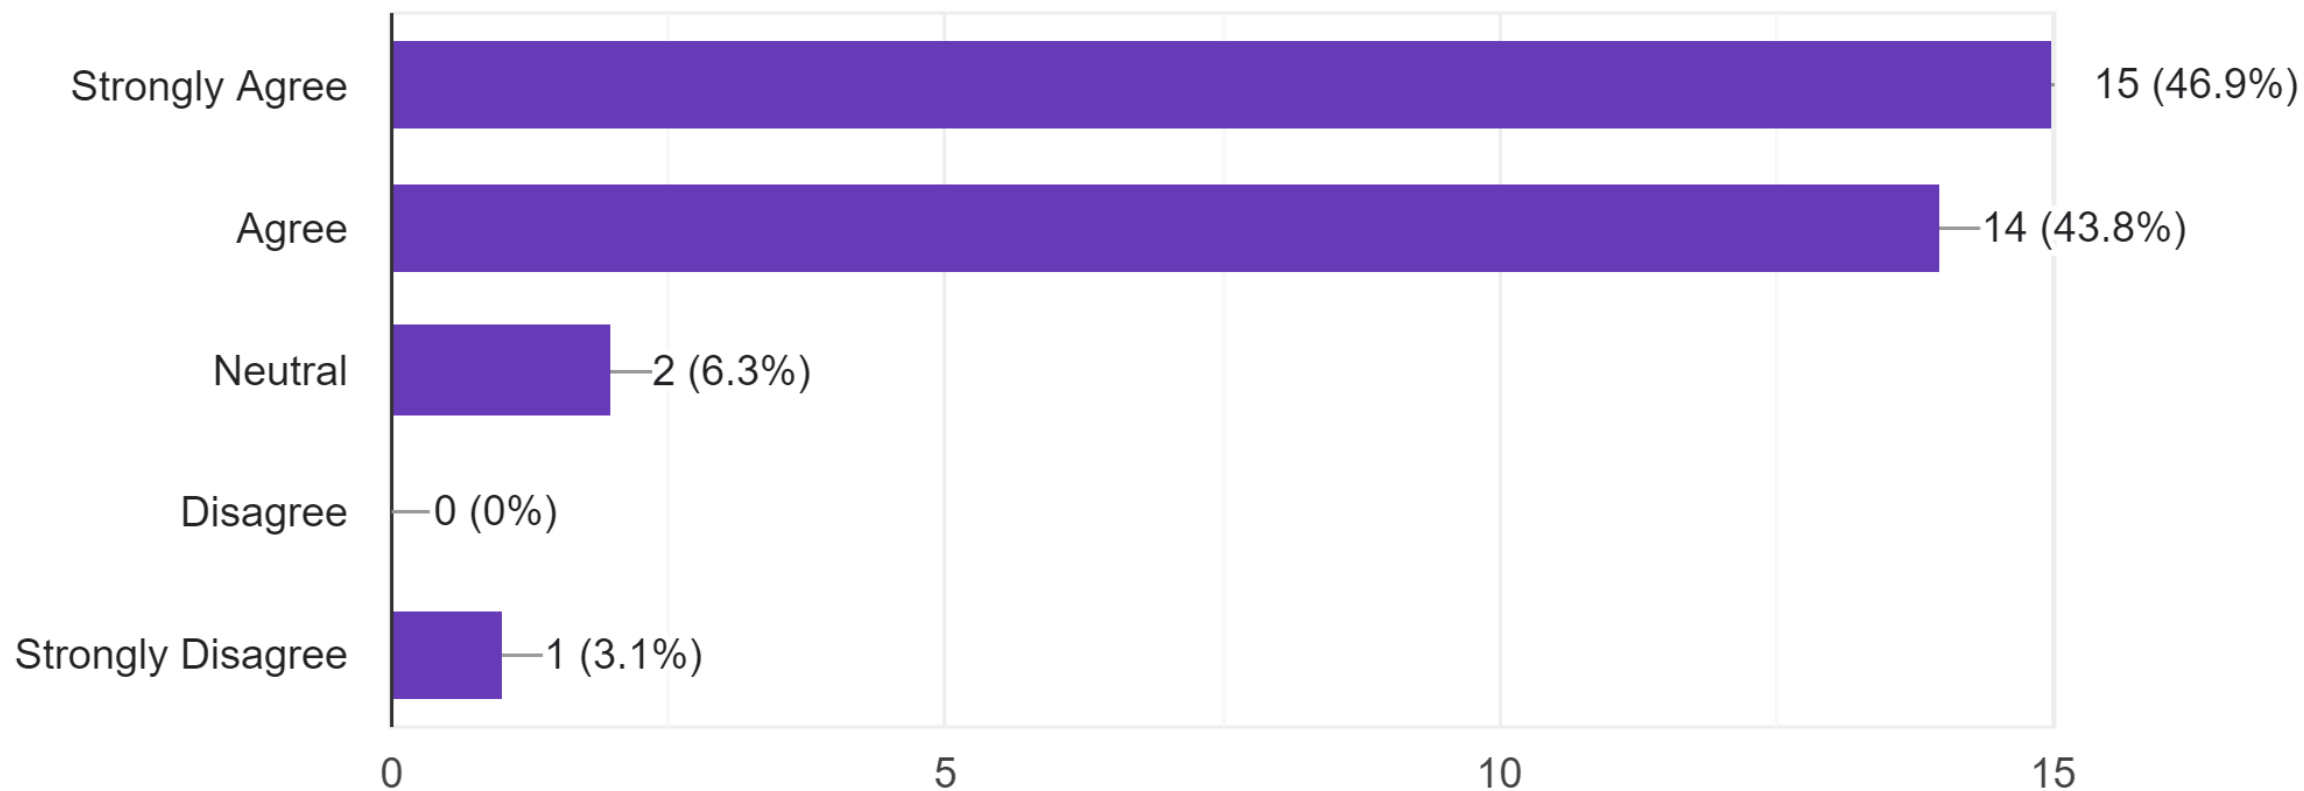

# The school is well led.

32 responses

# Overall I am happy with the school.

32 responses

# Please note two things the school does well

- Kids seem happy and my child loves it there
- Communication with parents & providing many extra curricular opportunities
- Making the children feel included and making them feel safe and absolutely well looked, there is so much I could write.
- Listen to children and helping them with there leaning
- Provide a variety of learning opportunities. The school has built a vibrant, caring community that is welcoming to all children. This ensures all children feel safe.
- Having others come in to teach the children, for example my son has particularly enjoyed being taught music from someone outwith the school.
- Strong head teacher leadership and teaches manners respect for others
- It is very friendly
- Patience with children and understanding them and supporting them also
- I am really appreciate for getting points to pupils for walking to and from the school that encouraged my son to walk to school instead of asking for a lift.
- After the pandemic the school have been very good at meeting the children's individual needs. They have been sensitive to how the children may be feeling and support them when needed.
- Children are taught good values and made to feel part of a community.

# Please note two things the school does well

- Cared for my sons medical needs,
- Makes both my children feel at ease and safe and happy
- Keeps me up to date with child progression, engages well with children
- Helpful, friendly
- Listens to parents concerns and because it is a small school able to help individual children more.
- Educate
- The school is very supportive and the staff and very friendly and approachable.
- Friendly staff
- Activo
- Great communication Makes time for pupils and available for pupils parent or cater
- Stars of the week/ hot choc Friday / school office runs amazingly
- The school engages parents really well The school creates an environment for all students collectively
- Communication with parents; breakfast club

# Please note two areas for improvement -

- More feedback to parents on child's learning and maybe more after school activities
- None to note
- N/A
- Nothing
- More frequent communication with parents about the child's progress and development, particularly in the important transition of P1. Offer more diverse outdoor learning opportunities.
- Playground could be more stimulating. More out of school educational trips.
- Report cards parents nights need improvement. Too late in year to do anything about or to ask any questions. Not enough follow up after online parents night cut off middle of questions. Homework should not be completely on Google classroom. A mixture would be better.
- Homework
- The school grounds need improvement and things for the kids to do..a grass area would be nice.
- nil
- Inform if child has an accident as not always told. Perhaps better playground activities as the fencing is still in place and not very safe
- This is about all schools, but more help for kids with ASN. Beckford does as much as a small school with limited funding can do. But all schools need more help. It comes down to the area we live in, not everyone can afford to send their kids on trips and also covid really screwed things up. But I would love to see the kids get out on day trips more, even just to the local park.

# Please note two areas for improvement -

- Monitor and discipline children
- Parents night face to face
- Improve playground More external services absolve in the school for emotional well being
- Play ground
- School groups/sports groups etc
- More digital literacy skills being taught to help pupils cope with Google Classroom homework; I felt that it was our fault that Rhea couldn't keep up with her Google Classroom as we are so busy at nights so more paper copies might have been better or a booklet to work through more independently.
- Better continuity with lessons

# Any other comments...

- Thank you for helping my daughter with her learning and making her feel so confident in herself.
- Thank you for everything you have all done this year to welcome the P1s to Beckford. My daughter couldn't be happier and absolutely loves it which is a testament to all the staff's hard work and commitment. Well done!
- The parking across from the school needs to be addressed promptly, parents parking on the pavement is dangerous. Bollards may be a solution, I'm sure many of the parents would support this.
- I understand COVID has had a big part in the difficulty in interaction between school and parents this year. I am hoping p2 will make it a bit easier with more consistency for the children. Thankyou very much for everyone's hard work.
- Excellent school in general. More funding for the school is required to make the required improvements.
- Wonderful school everyone knows each other regardless what primary they are in they all look out for each other which I find is good .
- I think on the whole Beckford is an amazing school and I'm glad my kids get to go here. The fact that it is small school really helps my kids to not get overwhelmed. While my kids might not like all the teachers (it would be difficult to find a child who does), I have had no issues with any of them. Mrs Hogg always does what she can for the school and is a credit to her profession. No school is perfect but Beckford comes close.
- Sometimes getting in to breakfast club can take a while as there is no one in the office. This can be stressful for those of us who have to then race to work for 0850 and a little further afield! Having said that, I'm very grateful for breakfast club & Miss Linda has been wonderful & Rhea happily goes in now. Thank you to everyone who has worked so hard to support Rhea. She loves school & has settled in well & she has been so well nurtured.
